

ISO 9001: 2016 Certified Recombinant Proteins*

- **Manufactured to the highest standards in Australia**
- **High Activity, Low Endotoxin**
- **Stable, Freeze-dried format**
- **Competitively priced**
- **Original manufacturer, bulk sizes available**

Lead Products

Human LR³ IGF-I

Human IGF-I

Human IGF-II

Human L-EGF

Human IGFBP-3

**Buy from the original producer. Buy the Best,

*GroPep Bioreagents has Certification of Compliance to AS/NZS ISO 9001:2016 Quality Management System

ISO 9001: 2016 Certified Recombinant Proteins

Human LR³ IGF-I

Full-length, recombinant 83 amino acid analog of IGF-I produced in Escherichia coli (E. coli) via fermentation with >95% purity by SDS PAGE with ≤ 0.1 EU/ug endotoxin

Human IGF-I

Full-length, recombinant single-chain 70 amino acid polypeptide produced in Escherichia coli (E. coli) via fermentation with $\geq 95\%$ purity by HPLC with ≤ 0.1 EU/ug endotoxin.

Human IGF-II

Full-length, recombinant single-chain a single chain 67 amino acid polypeptide produced in Escherichia coli (E. coli) via fermentation with $\geq 95\%$ purity by HPLC with ≤ 0.1 EU/ug endotoxin.

Human L-EGF

Full-length, recombinant hEGF protein with a 53 amino acid N-terminal extension peptide produced in Escherichia coli (E. coli) via fermentation with $\geq 95\%$ purity by SDS page with ≤ 0.1 EU/ug endotoxin.

Human IGFBP-3

Full-length, recombinant single-chain a 264 amino acid protein produced in mammalian cells for accurate & essential glycosylation with $\geq 90\%$ purity by HPLC with ≤ 0.1 EU/ug endotoxin.

The Original Best, only from GroPep.
